Glenn's latest installment is excellent. Did you see it? 6/24/67

Fawcett: The relationship between Hoffa & Ruby was discussed for me by Ruby himself in a long interview in August, 1964. I'm sure Judy can use it if you need it. I thought I had already told you that. Ruby concluded this praise of Hoffa by saying: "I love it being known I'm close to him since the assassination." Needless to say! (Glad to report Bradon. He discovered for us exactly what skull-juice was formed.)

I am glad to hear your remarks on MacNeil. She seems the most ridiculous story. I am sure the "man with the crew-cut" who showed Lie his "credentials" & who said he was a SS man, was intended by Lie as a diversion, & that the trial had occurred in Dallas, the prosecution would have had to produce had Lie so desired.

I will have rec'd down & type out Jim's opinions of my impressions on the Ruth Paine interviews. A number of these items are small, but important to me — Showing Ruth's willingness to "color" her story for the Government's sake.

Ruth admitted to me, for example, that (over)

slight accessibly kept on by Lee (11/21/63) in his
Garage & discovered by him (Lee) that night,
had frantically been kept on by Lee! But he
wrote it in detail on the typewriter. I feel so
sorry for you, when you have to read
my hand/writing! Not that you've typed letters
are so hot. Still, I know how busy you are.
My efficiency & Mrs. Kennedy at present had only to do
with the emergency situation. Both Mrs SS & EH for main thought
the assassin would attempt to finish the job at Parkland.
I, Dr. O'Connor, Thomas the Secret Service, O'Brien, O'Donnell & Bundy
were all about the danger for Mrs. Kennedy. Mrs. Kennedy
was feeling nothing along this line. Her trauma
had been only into a frenzied determination, do not, danger
or not, she would not leave the body. Needless she kept
her word being a brave and lovely lady. Had the Dallas
authorities gotten their way, she would have
willingly put the bronze out in a limousine in
Parkland until the autopsy was done. All she
wanted was to stay with the body. O'Donnell, O'Brien
& Bundy, however, felt the assassins on hand at
every moment (in fact, they admitted to wondering
if Ross behavior was a deliberate delaying
maneuver); their fear for Mrs. Kennedy
physical safety had them insist on leaving
Dallas & coming, that Ross accompany
them to Washington. Much love, D.
